1430	Closed Door Session, if needed

Comment [JC1]: We have asked him to focus on how the NRT operates, and what has changed since DWH.

Comment [JC2]: Recommend mentioning GRP work on Snake, Clackamas, Lake Washington; Dan Meer departure; any other news

Comment [JC3]: Ruth will be giving the general talk on what is required. She is taking the opposite tact in Oceania from AK. We will need to explain AK model. I have notes from an in depth talk with Marcia. We also need to think about how aggressive we want to be in RRT10.

Comment [JC4]: As of last Friday, CPT Ferguson planning to discuss EPA Liaison to Command during closed door. I am lobbying for a more open discussion. Not sure where it will end up.
